OVERVIEW

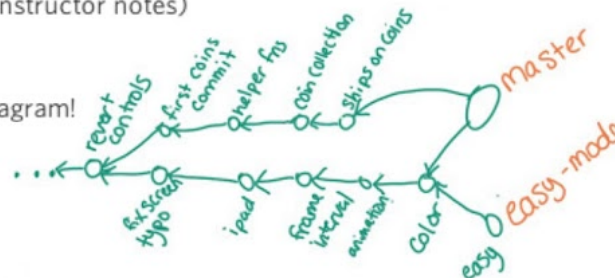

Update the diagram

Update the diagram to show what the state of the repository will look like after master is merged into easy mode.

Feel free to draw the diagram however feels most natural to you. A few options:

- use pencil and paper
- create a text file with stars and dashes similar to the output of `git log --graph`
- use an online diagramming tool (links in instructor notes)
- something we didn't think of!

☒ Check here when you're done with the diagram!

Correct!

Great! Continue to the solution to see Sarah's version!
