QuickEdit Mode

To make copying and pasting in GitBash easier by turning on QuickEdit mode, follow the instructions [here](#).

Most Recent Commit

The commit ID of the most recent commit is 3884eab839af1e82c44267484cf2945a766081f3. You can use this commit ID to return to the latest commit after checking out an older commit.

Entering commit IDs

If it is easier, you may enter the first four or more characters of the commit ID rather than pasting the entire ID.
